

CRONA Membership Meetings September 2017

CRONA Convention

Tuesday October 3, 2017!

Please remember to RSVP with your paystub, hourly rate, and shift length! CRONA will pay your entire shift for the day. If you schedule the convention within your commitment at the hospital, you can take the day off using PTO, ATO, or NO PAY!

All managers have been notified of the date of our convention, if you are having trouble getting the day off, please do not hesitate to reach out! If you cannot make this year's convention, please find an alternate to take your place.

Calling all Area Representatives.....

We continue to have units that have open representative positions. Each unit is allotted a representative for every 20 Nurses (or any portion thereof). Please help us fill these open slots. The more area representatives, the better CRONA is able to disseminate information and keep all CRONA Nurses up to date with current hospital issues. If you know of anyone interested in becoming an area representative, please forward their information to CRONA.

DON'T GET LOST!

As Packard moves toward opening the new tower in December 2017, our ability to use the LPCH auditorium has changed slightly. In the future, please look for our announcements of membership meetings to make sure the location has not changed. We will have a few location changes in the upcoming months!

Social Media and Code of Conduct

Please be advised the both Packard and Stanford have very strict social media and code of conduct policies! Every year with your completion of healthstream, you sign an attestation that you have read and understand the code of conduct required of ALL hospital employees.

CRONA has been working a cases that involve Nurses and their "posts" to FB and other social media sites. Per our policy and code of conduct, Nurses CANNOT "post", "like", "share", "comment", etc... or in any way acknowledge information about a patient, situation, family, employee, self, etc... that could lead to the even the slightest exposure of private information surrounding affiliations with Stanford or Packard hospitals. In fact, if you notice these types of posts, or find lost information, or any other patient identifying comments, you are REQUIRED to report them to compliance at once.

Failure to report to the compliance department may result in disciplinary action, up to and including termination!

Attached you will find the Therapeutic and professional boundaries policy and pertinent pages of the Code of Conduct
